With so many suppliers online, how do you find the right suppliers?

Are they who they say they are?

Have they made the product before?

Will the quality meet my expectations?

Can they follow through on their promises?

Do they really have manufacturing facilities?

Find the right suppliers by using a unique combination of online and trade show services:

Find products online – exclusive products from Verified Suppliers – and products just released by exhibitors at our trade shows, and

Meet face-to-face with the suppliers you’ve researched – at any of our China Sourcing Fairs around the world
Finding suppliers is not the problem
Let Global Sources help you find *the right suppliers!*

How do you find the right suppliers?
Finding the right suppliers has always been difficult. But today, it is riskier and more difficult than ever.

When we interviewed more than 9,000 buyers during the last year, most of them were overwhelmed by the quantity of products and suppliers that are online. The clear request was: How can Global Sources help me filter through the clutter to find reliable suppliers?

With 43 years of experience helping professional buyers source from Asia, we are committed to helping you identify the suppliers that are right for you – no matter what your business type is, how big you are – or what stage you are at in the sourcing process.

But why Global Sources?
Our primary objectives are to present you with valuable and exclusive products – and to give you access to all of the qualified suppliers.

We have five guiding beliefs that helped us determine how to best serve you:
- There is an overwhelming quantity of products and suppliers online – and a lot of risk.
- Online-only sourcing content is absolutely necessary – but absolutely not sufficient.
- Sourcing at trade shows is necessary for many buyers, but absolutely not sufficient.
- Products exhibited at shows have been very carefully selected.
- If possible, you would like to meet a supplier before making a large commitment.

The Sourcing Process

Online marketplaces and magazines are most effective in the early stages of the sourcing process – to identify and discover needs, to search, and to make inquiries. However, trade shows are more effective in the later stages – to negotiate, to select suppliers and to place orders.

Our Find Them and Meet Them initiative strives to integrate the best of online with the best of trade shows. The goal is to help you overcome limitations of online-only sourcing and to provide essential sourcing services.

**FIND** suppliers – however you choose – using our digital and print magazines, online marketplace, *Product and Supplier Alerts*, *Private Sourcing Events*, or trade shows – see Page 8

**MEET** suppliers, examine their products, and look them in the eye – at our 45 shows all over the world – see Page 2

Find Them and Meet Them
Global Sources enables you to find suppliers with the industry’s broadest range of sourcing media. Online marketplaces and magazines are most effective in the early stages of the sourcing process – to discover, to search and to make inquiries.

However, trade shows are more effective in the later stages – for negotiation, supplier selection, and ordering.
Attend **China Sourcing Fairs** in Hong Kong and around the world
Evaluate suppliers and inspect their products

**Meet suppliers face-to-face**
After identifying potential suppliers online or with our magazines, attending our shows will enable you to answer your most important questions:
- Are they really who they say they are?
- Have they made the product?
- Do they really have manufacturing facilities?
- Will the quality meet my expectations?
- Can they follow through on their promises?

**Global shows**
During the primary sourcing seasons every April and October, Global Sources holds three phases of trade shows in Hong Kong.
- The shows encompass a full range of electronics, gifts and home products, as well as fashion products.
- Exhibitors from throughout Greater China and the rest of Asia show their most important products in more than 6,500 booths.
- Attendees include tens of thousands of international buyers – including virtually all of the biggest names – from over 100 countries.

**Regional shows**
Throughout the year, Global Sources also takes suppliers to Johannesburg, Sao Paulo, New Delhi and Miami. Benefits of the regional shows include:
- Convenient for newer importers and local buyers.
- Ideal for sourcing in-between the large shows in Hong Kong.
- Exhibitors show products that they feel are suitable for that specific region.

Meet exhibitors at the Hong Kong China Sourcing Fairs will have more than 100,000 of their products on GlobalSources.com – before the show.

"I think the suppliers from China have been great. The benefits of coming are you can really see and touch the products, communicate with the suppliers, and be able to source well; it really helps."
